

# WHAT MATTERS THE MOST FOR US IS DELIVERING QUALITY SOLUTIONS

HVAC | VENTILATION | AIR COOLING

AIRCARE SYSTEM & SOLUTION INDIA PVT. LTD

# CORE COMPETENCY

**Aircare Systems and Solutions India Pvt. Ltd** is manufacturer and supplier of all types Ventilation System ( Plant, Test Rooms, Commercial Malls, Multiplexes, Hotel Industries, Food and Agro etc. ), D.G. Room Acoustic and Ventilation, Acoustic solution for shops, Boundary Walls (Acoustic), Testing areas and Offices, Fume extraction systems, Hot air Handling systems like Ovens, Conveyers, Thermal Insulation, All type of Water Circulation Systems and piping, Fire detection and suppression system.

Aircare has established itself in turnkey projects and has developed competence in material handling systems to support this business segment.

Aircare has exposure to international business practices, having trade relations with countries in Europe, Asia, & Africa.

Aircare undertakes designing, manufacturing and installation of stainless steel interior work consisting of railing, staircases, spiral staircase, canopies, skylight, ramps, bridge, cladding signages etc.

**Aircare Systems and Solutions India Pvt. Ltd**  
Preferably undertake following type of project with turnkey solutions.

- Ventilation System with Ducting
- Thermal Insulation
- Fume Extraction Systems
- High Speed Doors, O/H Sectional Doors, Sliding Doors, Barriers etc.
- Acoustic Solution
- Water, Fuel, Air Supply System and Pippings.
- Hot Air Handling ( Heat Process ) Related to Baking Systems.
- Material Handling and Conveying Systems.
- AMC and 24x7 service support for above products.

# PRODUCT DESCRIPTION

**Aircare** is one of the prominent manufacturer and supplier of a comprehensive range of industrial equipment. Our range include Direct and Indirect evaporative air-cooling, Air ventilation Air distribution product, Air circulation product and cost-effective fouling prevention and water treatment equipment. We facilitate a stream lined and efficient professional service function since 2005. We aim to provide superior quality manufactured product, in tandem with defined industrial standards to match the varied demands of our clients.

We provide 100% customer satisfaction and in return garner valuable clientele such as across the India. We have played a vital role in bringing safer, better and increasingly valuable technologies to benefit our customer. To provide our customers with world-class product, our highly experienced engineering team offers suitable system and solution.

Aircare Evaporative Cooling System provides an effective cooling option that is completely environmental friendly and provides cool, fresh and filtered air at extremely low costs. Our products deliver increased productivity and energy efficiency to facilitate and industrial processes. Aircare also offers a range of products for air distribution ranging from standard GI Ducting, Composite Ducting, Grills dampers. Aircare execute turnkey solution at with very competitive pricing.

**Aircare has several prestigious customers across the India such as**

**Suzlon energy Ltd  
Godrej Industries  
Tata Motors  
Bajaj Auto  
Café Coffee Day  
McDonald's**

**Lumax Industries  
EATON Corporation  
Yazaki India  
Tata Toyo Radiator  
TACO-IPD  
Cargill Foods**

**Dorabjee Mall  
Seco Tools  
Endurance  
Mubea Automotive  
Sandvik Asia  
Gabriel India**

**Mahindra Hinoday  
Mahindra Sanyo  
Exide industries  
E-square  
Asian Cinema  
Railways**

**and more than 2000 successful installation across India**

# LIST OF EXCLUSIVE DEPARTMENTS

- Human Resource Department
- Engineering & Design
- Sales & Marketing
- Procurement
- Production, Quality Control & Assurance
- Projects
- Service After Sales
- ISO

## PROJECT MANAGEMENT CAPABILITIES

The list of major clients and the various turnkey jobs executed mentioned above itself shows our project management & execution capabilities.

- **Aircare** is an ISO 9001-2015 professionally managed organization.
- We have qualified and highly experienced project engineers backed up by our HO for the systematic execution of projects.
- Our erection crew is well trained and experienced to handle such type of jobs.
- We have enough tools and tackles & machineries to handle any volume of project execution jobs.
- Our HRD department takes care of the welfare of the project personnel, adherence to safety requirements, maintain all statutory requirements and all records.
- Our senior staff frequently visit site, review the progress and take appropriate action plan wherever required.
- We maintain excellent coordination with client and keep them informed about the job status time to time.

# SHOP FLOOR MACHINERY

## Automatic duct Line III

Duct Line III has the capacity to remove coil set, beading, notching, cutting, bending.

## CNC Plasma Cutting Machine

Plasma cutting machine is use to give excellent cut quality and precision on a wide variety of material which provides the widest range of profiles for elbows, tapers, offsets, branches & other sections.

## TDF Machine

TDF machine is used to make universal flange making system which can save time with its well seal, strong and durable joint TDF Duct Flange forming machine is most widely used and traditional machinery applied in the manufacture of rectangular duct.

## Round and Oval elbow making machine

This machine use to make elbow for round and oval duct.

Sr. No.	MACHINERY	TYPE
1.	Lock Forming Machines	Imported - 2 Nos Indian - 2 Nos
2.	Bending Machine	2500 mm(L) - 2Nos
3.	Powder Coating Plant	With 7 Tank pre-treatment system. Convoyorised and Gas fired paint. Booth (ASSOCIATED)
4.	Shearing Machines : (NC)	
	Powder Shearing Machines	2.5 Mtrs. x 10 mm & 3.1 Mtrs. x 6 mm
	Hand Sheering Machines	2 Nos
5.	Perforating Machines	1.2 Mtrs. x 2mm Hotels - 01 Nos (ASSOCIATED)
6.		Amada - (ASSOCIATED)
7.	Welding Machines :	
	Rectifiers	6 Nos
	TIG Set	1 No
	MIG Set	10 Nos
10.	Cutting Machines :	
	a) Plazma Cutting	1 No
	b) Gas Cutting Set	12 Nos
	c) Profile Cutting Machine	1 No
11.	Metal Finishing Tools	1 Lot
12.	Radial Drilling Machines	2 Nos
13.	Lock Former Machines	1 No

## Round Duct Roller

This machine is use to make Round and oval duct.

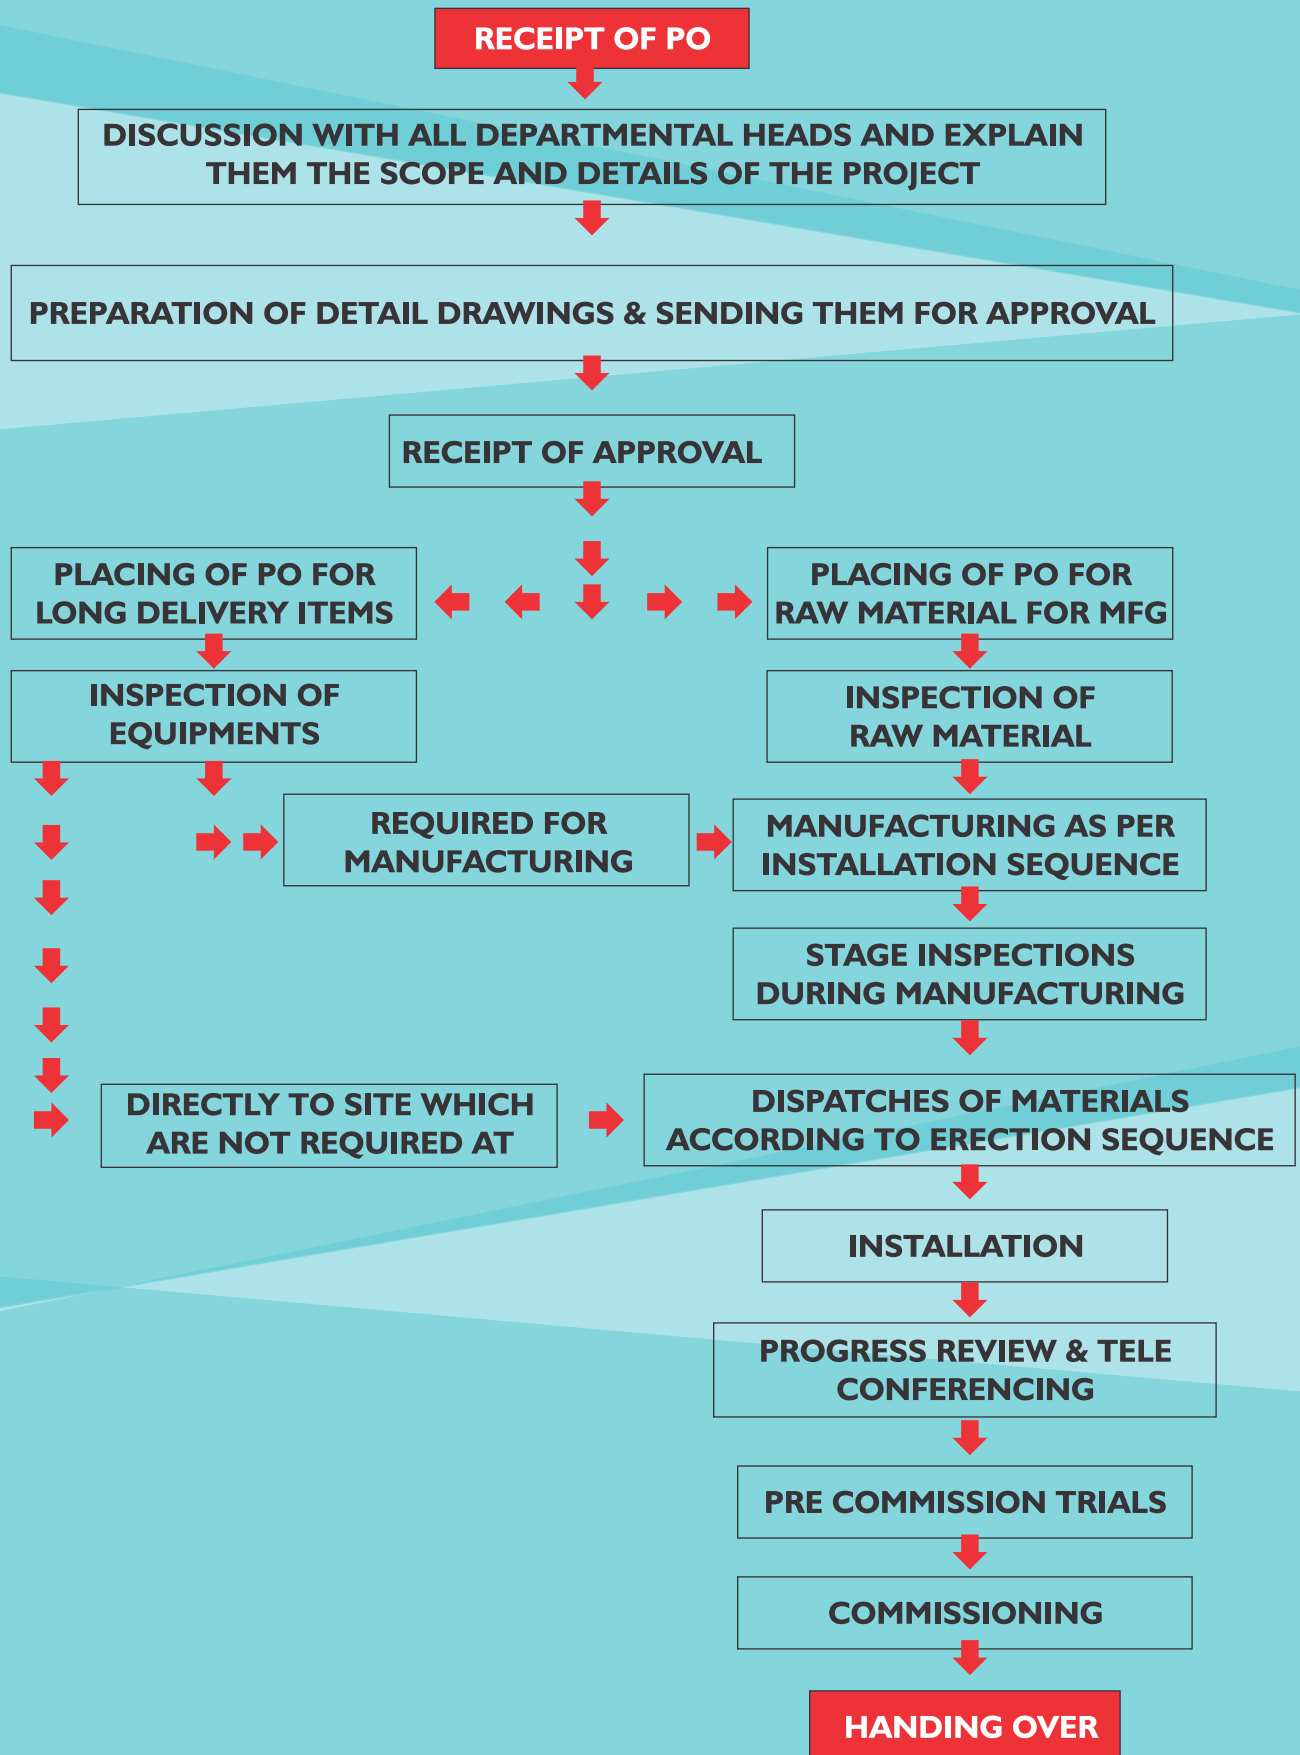

## Sheering Machine

This machine is use to give excellent cut quality.
